

## ◀ ANTI-VIBRATION HANDLEBAR CLAMPS ▶

This racing product from Roll Design should be used in conjunction with the steering stems from IMS Roll Design (as shown on page 99).

These clamps transmit less vibration than traditional cones, limiting tiredness and improving control. They come ready for immediate fitment and are available for standard handlebars (ø22 mm) or racing (ø35 mm).

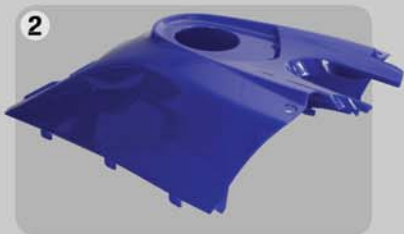

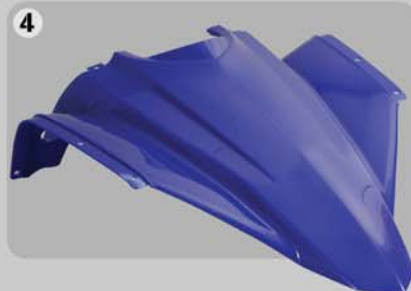

Reference	Diameter
RIMS700	ø 22 mm
RIMS701	ø 28,6 mm
