F = Front - R = Rear - 1 inch +/- = 2,54 cm.

Our ART Aluminium Sport wheels have been specifically designed for ATV's and off road go-karts. Manufactured in 5mm thickness T9 aluminium. These wheels look great and offer a reduced weight for better performance.

REINFORCED ALUMINIUM RACING WHEELS

These reinforced aluminium ART wheels have rolled inner and outer edges that means they have a very high strength along with great performance.

ROLLED EDGED WHEELS

- T9-190 Polished aluminium wheels.
- Very resistant to deformation.
- Maximum longevity.
